

MARSH HILL NURSERY SCHOOL

Behaviour Policy

Introduction

The Early Years Foundations Stage (2021) requires that all children must be supported to learn and develop through a focus on positive behaviour management. It is recognised that a key element of this policy is the consistent understanding and implementation of it by all staff.

Our philosophy is based on valuing others and the stimulation of the children's awareness of a global society, being aware of self, valuing friendships, appreciating differences and developing tolerance.

At Marsh Hill Nursery School we aim to ensure the individual needs of all children are met by providing clear, consistent and developmentally appropriate expectations for behaviour through:

- Respect
- Understanding and compassion
- Responsibility
- Fairness and equality
- Kindness
- Support and the use of positive reinforcement

Our principles and aims are guided by the principles of the EYFS:

- **A Unique Child: every child is a unique child, who is constantly learning and can be resilient, capable, confident and self-assured.**
 - All children are individual and have different and varied experiences before entering the setting. We will treat children as individuals and always seek to take any personal and specific needs into account in managing their behaviour.
 - Some children, because of their lack of experience, skills or self-motivation may need more encouragement or reinforcement than others to produce the required behaviour.
- **Positive Relationships: children learn to be strong and independent through positive relationships.**
 - We will always seek to develop and maintain positive relationships with children and their families.
 - When children exhibit any inappropriate behaviour we will work in partnership with parents/carers on a solution-focused approach.
 - The setting expects children's and parents' cooperation in maintaining an orderly climate for learning.
 - All incidents of bullying will be taken seriously and dealt with by senior members of staff.
- **Enabling Environments: children learn and develop well in enabling environments with teaching and support from adults, who respond to**

their individual interests and needs and help them to build their learning over time.

- We believe that all children have the right to be in a safe environment that is conducive to learning.
 - We expect children to behave appropriately and to adhere to our setting rules.
 - We will not tolerate violence or threatening behaviour or abuse.
- **Learning and Developing: Children develop and learn at different.**
 - Children will react positively if adults make a point of commenting frequently on good behaviour.
 - Once rules and routines are established in the setting and are clearly understood, most children will respond to specific praise and reminders and will behave appropriately.

Support behavioural strategies and procedures

Where negative behaviours are recognised or observed staff will intervene appropriately, in a clear calm and positive manner, to support children to reconcile conflict. This will be done in an age-appropriate approach.

We help children to care about others by:

- Using conflict resolution and keeping calm.
- Modelling appropriate behaviour.
- Working on and reinforcing the understanding of feelings e.g. in circle time.
- Naming and making feelings clear including the consequences of their actions.
- Being aware of the power of language i.e. not being confrontational or negative.
- Boosting self-esteem.
- Giving time to listen and help acknowledging their responses sensitively.

We help children to be polite by:

- Saying “good morning” and where appropriate “please and thank you” (we model behaviours we want them to copy). Encouraging children to wait their turn.
- Talking one at a time, listening to each other without interrupting when someone is already speaking.
- Giving children clear messages and setting an example.

We ask children to look after equipment by:

- Encouraging children to use equipment appropriately look after it and tidy it away.
- Washing the dolls, bikes, toys etc.
- Reminding them to tell us about breakages.
- Looking after the equipment ourselves and therefore modelling it.

We help children to care about the environment by:

- Making it as attractive as possible.

- Tidying up together and picking up rubbish.
- Explaining proper care and use of areas - garden, painting area, home corner, sand etc.
- Noticing, acknowledging and praising 'careful handling' and modelling it.
- Sharing responsibility.

There will also be a regular assessment of the environment to ensure that it is not a negative impact on behaviour and that all children's needs are being met.

Positive Reinforcement

Always adopt a positive attitude in body language and verbal language.

When a child is displaying good behaviour tell him/her what they are doing that is good.

Examples of Behaviour and Strategies

Children display a range of behaviours at this age, most of which are to be expected for their age and in particular when they are new to a nursery environment. Staff may be expected to deal with behaviour, such as inappropriate shouting out, having a 'tantrum', snatching and walking away at tidy-up time etc. Intervention will be low key and may include one of the following:

- Using a positive statement e.g. "Please remember to walk inside".
- Explaining any concerns e.g. "If you lean back on your chair, you may fall over".
- Giving choices.
- Having a group discussion or circle time about "rules".

Staff will deal with challenging behaviour by:

- Labelling the behaviour not the child, e.g. saying "I don't like it when....." Or "It's not ok to"
- Using non-confrontational language e.g. "When sand is thrown" Instead of "When YOU throw sand....."

Use Emotion Coaching & Co-regulation.

Children's behaviour is a form of communication and a way for them to express an emotional need. Staff will respond in a way that focuses on the feelings and emotions that might drive certain behaviour, rather than on the behaviour itself.

- Look beyond children's behaviour and think about children's needs.
- Recognise the child's feelings and empathise with these feelings and not the behaviour.
- Verbalise and label the feeling with the child, which validates to the child why they might be feeling that way and that it is ok to feel that way.
- Use co-regulation activities with the child to help them regulate their emotions and calm down e.g. reading a book together, using squishy toys, running on the spot, yoga.
- Set limits on the behaviour, discussing that although it is ok to feel a particular way it is not ok to then.....

- Aim to problem solve with the child supporting them to identify how to make the situation better and identifying what needs to happen as a result e.g. next time someone takes a toy from you, you could

Behaviour Breaches

Physical – hitting, kicking, pinching, biting, pushing.

Social errors – not sharing or taking turns, spitting.

Verbal abuse – swearing, shouting, name calling, unkind words.

Staff usually deal with behaviour incidents as they occur during the day and then the episode is over. Staff will discuss the best strategy with the Headteacher before speaking to parents.

Inside Sessions

1. Discuss behaviour with the child and explain appropriate behaviour.
2. Ask the child to choose another activity and work with them to divert their attention.
3. Exclude the child for a very short time e.g. on a mat (close to staff) 2-3 minutes – 5 minutes maximum.
4. If the child persists, remove them from the classroom situation again or calm the child whichever is appropriate.
5. Refer to Headteacher if all the above steps have been followed and the unacceptable behaviour continues.

Outside Sessions

1. Discuss behaviour with the child and explain appropriate behaviour.
2. Ask the child to choose another activity and work with them to divert attention.
3. Walk with the child for a short time.
4. The child returns to a chosen activity but if he/she continues, exclude him/her for a very short time, 2-3 minutes - 5 minutes maximum.
5. Refer to Headteacher if all the above steps have been followed and the unacceptable behaviour continues.

If behaviour is persistent and is not addressed by the above an 'Individual Behaviour Programme' (IBP) will be implemented. This will be done in consultation with the child's parents Class Teacher and Headteacher.

Exclusion

In the very rare event of sanctions and normal behaviour intervention not having any effect a child will be sent home or have time reduced. This will be with full co-operation of the parents.
